

6045 EASYFIT PROPANE HOSE

Prod.Code 01-6045

EasyFit Propane Hose

**Tighten By Hand!
No need for
spanners**

- Rubber nozzle creates perfect seal
- European Approved
- Fits all sizes of Propane Cylinders

INSTRUCTIONS

Ensure the gas supply is turned OFF at the cylinder. Check the rubber washer before connecting the hose to your regulator and securely tighten with a spanner.

Securely connect your system to the gas cylinder using the handwheel, remembering this is a LEFT-HAND thread. Ensure the connections are clean and free from damage.

Check the system for gas leaks before using.

CHECKING FOR GAS LEAKS

IMPORTANT - Carry out a leak test using the Gaslow Gauge or a soapy water solution - NEVER USE A NAKED FLAME.

Testing for leaks should start at the gas cylinder, working back to your appliances.

GENERAL SAFETY PRECAUTIONS

Gas cylinder storage areas must be well ventilated. Use no naked flames, cigarettes, matches etc. in the vicinity when connecting, disconnecting or when operating the gas supply.

**The EasyFit -
Can replace
any standard
propane hose**

The Gaslow Propane EasyFit high pressure hose will connect to ALL makes of 30mbar pre-fitted caravan and motorhome regulators.

In addition it can replace ANY of the hoses fitted to Gaslow Propane systems shown below:-

01-1650
Manual Propane Changeover.
Designed for twin cylinder systems conforming to the original British Standard.

01-1655 and 01-1655 ENR
Automatic Propane Changeover.
Designed for twin cylinder systems conforming to the original British Standard. The ENR is designed for imported vans requiring a 30mbar regulator.

01-1840
Electra 1000 Twin Hose Regulator System.
Combines the benefits of leak detection and low-level indication with a gauge incorporating a remote warning system to tell you when you are running low on gas.

It can also be connected to any of the 2004 Propane upgrade kits which come without hoses (see below)

01-1631 01-1631 /1632
Manual Changeover Gauge.
Designed to create a twin cylinder system for new caravans

01-1755
Automatic Propane Changeover Head.
Designed for twin cylinder systems. When Gas levels run low, the sensing device automatically changes to the reserve cylinder.

01-1845
Electra 1000 Upgrade Kit.
Designed for new caravans and motorhomes. Combines the benefits of leak detection and low-level indication with a gauge incorporating a remote warning system to tell you when you are running low on gas.
